

# RUSHING AHEAD LARGE PLACER PROJECT

(From Sunday's Daily.)

Within two hours after the deal for the Lafayette placer holdings on Lynx creek had been closed by C. S. Israel, on Friday forenoon, the latter entered into a contract with the Arizona Mine Supply Co., for constructing a big water storage dam, and later the work was sublet to Mancy Brothers Construction Co.

Friday afternoon a large line of material and supplies was shipped to the camp, and a force of men started excavating for the foundation of the huge dam. This structure will be of the arch type, and of reinforced concrete, similar to that on Granite creek of the Hassayampa Alfalfa Farms Co. It will stretch across the creek for a length of about eighty feet, and will be anchored to bedrock, the depth of which is yet to be determined.

Speaking of this project yesterday, Mr. Israel said: "The corporation to take over these valuable holdings is to be a close one, and not a share of stock is to be placed on the market. We have the men with the money, and the undertaking has been practically and carefully passed upon by competent engineers and placer miners, of whom Arthur Pauline is fully competent to judge, and who is to be a member of the operating syndicate. This authority personally inspected the big area, and expressed himself as more than well pleased. He comes from a family of placer miners who are known throughout the West, for the successes made, and his grandfather followed this line of mining many years ago in the State of Georgia. We now propose to go ahead actively and the contract calls for the dam to be ready in sixty days."

## Plan of Operating.

Mr. Israel imparted information which is quite interesting as to the method adopted by engineers for recovering the values. He stated that the subterranean flow of Lynx creek has been definitely ascertained and will afford sufficient storage for the mining plans agreed upon. Pumping therefrom is to be given by two Morgan engines, that are en route from the East. Four hydraulic giants are to be installed, as well will several pumps be kept in action on the sumps. The pleasing feature of this huge and yet novel undertaking is that the holdings are practically inexhaustible in some sounding the bedrock being over 33 feet below, while the banks on the creek also have been tested and are known to carry satisfactory values. The dam will be situated about a half mile up the creek from the wagon road crossing where an ideal granite formation exists for anchorage. The erection of quarters for employees and other surface movements begins at once. This proposition matures after nearly two years of preliminary consideration, during which time exploration has been going on quietly and under limited means of determining absolute auriferous conditions all of which have proven an attractive proposition.

## FOUR "NUTS" IN THE HOTEL DE YOUNG

(From Sunday's Daily.)

Four persons, in the language of the street known as "nuts," are now confined in the Hotel de Young and at the rate they have been arriving lately the prospects are good for more.

George Gove of Crown King is possessed of the idea that he has lime juice in his left leg. That is not had compared with the rest of his illusions. George says that during the night when everything is still and dark the electricity from the telephone and power wires is mixed with the salt in the air and the combination of salted-electricity forms a contact with the lime juice in his leg that causes an explosion like the report of a pistol and which can be heard for miles. That is not all for George is confident that during the night some one is always taking flashlight pictures of his manly form and face. During the day George is in constant fear that the lime juice will creep up from his leg to his heart and brains and put an end to his earthly career.

George's peculiarities were discovered when he was brought before Justice of the Peace B. R. Marks at Crown King on a charge of shooting a pistol and disturbing the peace. At the preliminary hearing Marks decided that it would be best to have the man sent to Prescott and examined for insanity. He was brought to the county jail by Constable J. E. Shearer.

The other three "nuts" behind the bars are Sue Sing, who is afraid that some one is trying to kill him, J. S. Jarboe, better known as "Jack Davis" who tries to build fires on his bed and the latest is a Mexican from Seligman named Jesus Bareras. The Chink and Jarboe have been committed to the asylum by Judge Smith and the other two men will be examined.

The Mexican, who was sentenced to 90 days in the county jail by Justice of the Peace Cartmell at Seligman for attempting to assault Deputy Sheriff Fred Campbell, is continually looking for matches for the purpose of setting fire to his clothing. Under Sheriff Marks declared yesterday that the Mexican will have to be examined for insanity.

Bareras yesterday morning was forced to take a bath by the jail officials but after he had completed it he persisted all morning in imitating "September Morn." He would not put on his clothes and searched the interior of the cells of the jail for matches to set his clothes on fire, evidently believing in the back to nature movement.

## IN DATE CREEK

WRECK; ASKS FOR \$15,000.

(From Sunday's Daily.)

Alleging that as a result of several ribs being broken and internal injuries suffered in the Date creek wreck last August, his health has failed and his breathing has been greatly interfered with, V. A. Hewitt, who was in the smoker of the wrecked train, yesterday filed suit in the Superior court for \$15,000 damages from the Atchison, Topeka & Santa Fe Railway Company and the Arizona, California & Santa Fe Railway Company.

While four were killed and sixteen injured in the accident near Hillsdale, which caused much grief in Prescott and Chandler, this is the first suit for damages that has been filed in the local court.

Hewitt was in the employ of the defendants on August 26, in the capacity of bridge carpenter. On that date, according to the complaint, he boarded the train at Wickenburg to go to Prescott as he had been ordered here to perform certain work. The train which he boarded was the ill-fated one which went through the wooden bridge constructed across the 'Date Creek wash.'

Hewitt admits that water was flowing in the wash because of rains but states that because of material used as well as the method of constructing the bridge that the same was weak, insecure and dangerous and he specially claims that the defendants knew of it, and should have had the train approach the bridge slowly so it could have stopped and an examination made before it proceeded to cross.

Hewitt, who is 33 years old, declares that the car he was in was totally demolished and avers that he was not only cut and bruised but suffered internal injuries, had several ribs broken and was nearly drowned. He was in the hospital several weeks and says that now he is totally incapacitated from any work or labor. His attorneys are Clark & Clark.

## STEADY PRODUCTION

AT THE CASH MINE.

(From Sunday's Daily.)

N. H. Getchell, operating the Cash mine, near Maxton, stated Thursday mine and mill operations are systematized, and steady production is going ahead. Shipments of concentrates are maintained monthly on a basis of a carload of a good grade. This output will be increased when water is abundant for running the mill day and night. The mine showing, he states, is better than at any time in its history.

## CATTLE TRADE IS SATISFACTORY TO SELLERS

KANSAS CITY STOCK YARDS.

Nov. 1.—Cattle trade last week was satisfactory to sellers after Monday, a good strong market on all kinds every day, and cattle took good fills. The supply today is 33,000 head, and sales are steady to strong on both killing and country grades.

As was the case last week, about 75 per cent of the supply is stockers and feeders. The good demand of last week continues, and there is ample outlet. Kansas is the heaviest buyer, Missouri a good second, and Illinois is buying more cattle now than at any time in two years. On Wednesday of last week 15,400 stockers and feeders were shipped out to the country, a new high record for a single day here, and during the week, 51,707 head went out, biggest week ever known here. Also, for the month of October a new high record of stocker and feeder shipments out was made, at 185,690 head. The Panhandle and New Mexico had choice yearlings here today up to \$8.50, good yearlings and twos at \$7 to \$7.75, some plain feeders weighing around 1,000 pounds at \$6.50 to \$7.10.

Colorado had plain horned feeders weighing 980 pounds at \$6.85, dehorned feeders weighing 1,000 pounds at \$7, yearlings and twos at \$7 to \$7.50. Twenty-four cars Montana beef steers were included today, 1,170 to 1,320 pounds average, which sold mostly at \$7.60, a few at \$7.50. Montana beef steers sold here last Thursday at \$7.50 to \$8, cows at \$6.65. Oregon feeders sold at \$7.15 today, cows \$6. Western Kansas has first class wheat prospects, and is buying cattle to graze the wheat fields. Fed steers sold up to \$10 today, and the margin between feeders and finished steers, in conjunction with corn at 40 to 50 cents a bushel, is stimulating demand for feeding steers.

Sheep receipts 13,000 head, market strong. Lambs are quotable up to \$8.75, some medium range lambs today at \$8.40 to \$8.60, light weight Mexican feeding lambs, choice, \$8.25 to \$8.40, good Western feeders \$8 to \$8.25. Mexican "Peewees" around \$7.75. Fat ewes are worth up to \$5.85, wethers \$6.50, yearlings, both fat and feeding, around \$7. Breeding ewes find ready sale up to \$7, according to age, and feeding ewes sell at \$4.75 to \$5. "Shortage" is written all over the probable run of sheep and lambs here for the next two months, and strong prices are predicted by both buyers and sellers.

## POLAND COUNTRY IS BEING REVIVED

(From Sunday's Daily.)

Geo. H. Freyda arrived Thursday from Poland, and stated the First Home mines are again active, a Southern Arizona syndicate having taken charge. A force of five miners is employed, and the old workings and machinery are being put in condition for operating. The reviving of this zinc-silver property is occasioning considerable comment, and with other mines in that field preparing to resume a return to the former era of activity is noticeable. Freyda also stated the Walker region is solidly anchored to permanency and some large operations are going ahead.

## DEFENDS JAPAN

BALTIMORE, Nov. 6.—Dr. Rudolph Teusler, a medical missionary from Tokio, in addressing the laymen missionary convention, criticized the attitude of the United States toward Japan. He said the feeling of unfriendliness and distrust in the United States against Japan was the result of prejudice and misinformation.

C. E. Gentry, County Assessor, and Mr. T. J. Cavness, that an error was made in assessing T. J. and H. C. Cavness with 500 head of range cattle instead of 450 head as rendered by them and as shown by their National Forest permit, and that the aforesaid firm has been assessed with property that it does not now own and has not owned during the year 1915.

Under the provisions of Paragraph 4829, Revised Statutes of Arizona, 1913, Civil Code, you are hereby ordered and directed to strike from the said assessment 50 head of range cattle of a value of \$1,250.00 and allow balance of assessment to stand as fixed by the Assessor.

By order of the State Tax Commission,  
Attest: JESSE L. BOYCE, Secretary.

Upon motion, the Treasurer and Ex-Officio Tax Collector, was authorized and directed to strike from the assessment of T. J. and H. C. Cavness, for the year 1915, 50 head of range cattle in accordance with the order of the State Tax Commission.

The Clerk of the Board of Supervisors and County Engineer of Yavapai County were authorized and directed to attend a meeting to be held in the office of the State Engineer on November 17th, said meeting having been called for the purpose of adopting a uniform system of road accounting.

A letter was received from Mr. Chas. P. Mullen asking for an appropriation of \$500.00 for repairs to the road leading from the Prescott to Wickenburg road in Thompson Valley to the Ship ranch. The letter was ordered filed, no action being taken by the Board.

Upon motion, the Treasurer and Ex-Officio Tax Collector was authorized and directed to strike from the assessment of the Cactus Mining Company, for the year 1915, the improvements on the Conger mining claim, assessed at \$300.00, the same being a duplicate assessment.

Upon motion, the Treasurer & Ex-Officio Tax Collector, was authorized to mark the assessment of Mrs. Frank Lambertin, Sr., exempt, she having filed a widow's affidavit.

Upon motion, the Treasurer & Ex-Officio Tax Collector, was authorized and directed to strike from the assessment of Al. C. Vroom for the year 1915, special school taxes in school district No. 1, amounting to \$5.67, for the reason that the property so assessed is not in School District No. 1.

Upon motion, the Treasurer & Ex-Officio Tax Collector was authorized and directed to mark the assessment of Mrs. Dan Seidel exempt, she being a widow, and having filed a widow's affidavit.

The claim of W. Curtis Miller, County Superintendent of Schools was approved for the sum of \$182.96, as follows: Salary for the month of October \$166.67; office expense \$16.29.

Mr. H. D. Aitken appeared before the Board and presented a petition asking for repairs to the road between Crown King and Harrington. The matter was taken under consideration by the Board.

The payroll of county officials and employees for the period ending October 31, 1915, having been approved by the Board of Supervisors and the County Recorder, warrants in payment of salaries were ordered drawn upon the County Fund, the same being as follows, to-wit:
